

ANDREY VERBOVSKIY

Objective

Motivated and passionate student with the intention of gaining more experience in such a well-known company. Hardworking and open-minded, seeking of a chance to introduce already gained abilities. Opened to new challenges and to becoming a part of a big and friendly team of professionals. Moreover, participates in several tutorships and sport activities.

Education

METROPOLIA UNIVERSITY OF APPLIED SCIENCES

AUGUST 2019 - MAY
2023

Second year student in Information Technologies/ Smart Systems and IoT major.

Also, take multiple additional courses dedicated to Data Science and ML in University and on online resources like EDX and Udemy.

On these lectures I learn more about data manipulations, neural networks, advanced mathematics and so on. Examples of my works can be found either on my web-site or GitHub.

Additional Information

Have experience in building smart models, diverse data operations, advanced python and C++ coding. I have various projects like model for currency predictions, amazon drone deport locations, corona aware mobile app, password encryption project and many other.

Activities

TUTORSHIP

2016 - NOW

I have been tutoring math for many years in both university and high school

The main goals of tutorship were to help students to understand certain subjects, in my case it was math.
